Major Projects & Results

- Automatic Data Processing (ADP) – Streamlined corporate FP&A sales reporting activities through offshoring non-core activities and expanding strategic applications domestically, saving \$700K per year while sacrificing no United States jobs
- The Dannon Company – Facilitated autonomous management/TPM activities on high-volume 32-ounce yogurt production line, gaining 12% output productivity and \$168K per week
- Thomson Plastics – Achieved one-piece flow and cut 95% of downtime caused by unavailability of materials through work cell realignment on highest-margin product line
- Eaton Corporation – Optimized global RFQ capture and conversion process for Eaton Truck Group through Kaizen facilitation and process mapping, raising RFQ capture rate by 400%, reducing conversion time by 50%, and gaining \$1M through reconciled business opportunities
- Atlanta Braves Baseball Club – Optimized season ticket package sales program through streamlined package offerings and targeting prioritized industries based on data analysis, gaining \$4.3M in additional season ticket package sales revenue

Education

- MBA, Indiana University – Kelley School of Business, Bloomington, Indiana
- BS ChE, Tri-State University (now Trine University), Angola, Indiana
